

## Helping You Get Your Medicine

We understand there can be a lot of information to review, steps to take, and planning to consider when managing life with PAH. Janssen is here to provide you with educational support every step of the way.

### Complete the Consent

Visit [PAHconsent.com](https://www.PAHconsent.com) or use the QR code to provide consent to take part in Janssen CarePath services.

Here's what you can expect as you get started:

#### □ 1: A Call From Your Janssen CarePath Care Coordinator

A Janssen CarePath Care Coordinator will call you to:

- Review your health plan benefits to help answer questions you may have about insurance coverage for your Janssen medication
- Identify options that may help make your Janssen medication more affordable, if needed
- Identify and coordinate with a specialty pharmacy to arrange shipment of your Janssen medication

Look for a call from your Care Coordinator at **866-228-3546**. It may be helpful to have your insurance card handy.

#### □ 2: Connect With Your PAH Companion

- Your Janssen CarePath PAH Companion\* will call to learn more about you and put together personalized educational resources for managing and living with PAH, engaging with your support network, and partnering with your healthcare team

Your PAH Companion will reach out to you, and you can also contact them by calling 866-300-1818, Monday-Friday, 8 AM-9 PM ET.

Learn more at [pahcompanion.com](https://www.pahcompanion.com)

#### □ 3: Medicine Delivery

- Your medicine is delivered to your home
- Someone may need to be home to sign for the package. If you have questions about your treatment, be sure to speak with your healthcare team. On the back of this card, you can record the contact information of your healthcare team, Janssen CarePath Care Coordinator, and specialty pharmacy

Specialty pharmacies deliver medications that are administered or manufactured in a complex way. You may work with multiple specialty pharmacies to receive your medication.

You may receive a call from a number you do not recognize. If you miss the call, be sure to call back or your medicine shipment may be delayed.

\*The PAH Companion Program is limited to education for patients about their Janssen PAH therapy, its administration, and/or their disease. It is intended to supplement a patient's understanding of their therapy and does not provide medical advice or replace a treatment plan from the patient's doctor, nurse, or healthcare team.
